## Mission

We strive to improve the oral health of the communities we serve by providing resources for access to care programs and dental education.

## Vision

We are guided by the belief that all families should have access to quality dental care. We believe this vision can provide a brighter future for everyone in our communities. It is sustained by the extraordinary contributions of compassionate, knowledgeable and dedicated volunteers. It is built upon a strong tradition of giving started in 1864 by the Chicago Dental Society.

## History

Founded in 2008 by the Chicago Dental Society, the Chicago Dental Society Foundation works to achieve its mission by providing dental health care to low income residents of Chicagoland at the CDS Foundation Clinic, providing grants to local community organizations, and providing programs to increase oral health literacy. CDSF is the only dental foundation that owns and operates a clinic in Illinois run by all volunteer dentists.

# Celebrating a Year of Growth

Dear Foundation Supporter,

Thanks to you, 2019 was a year of continued growth for the CDS Foundation as we advance our mission to improve access to oral health care and education in underserved communities.

The inspiring work of our CDS Dental Clinic volunteers, staff and supporters was recognized with a Power of A Gold Award. The highest honor in the association industry, Power of A Awards are given by the American Society of Association Executives to nonprofits and industry professionals. This award is a great honor. Of the 7,400 organizations represented by ASAE, and of its 46,000 members, they chose to recognize us for our efforts to “solve problems, and strengthen lives, the workforce, the economy and the world” through the dental clinic.

This achievement is not only remarkable but also well-deserved. In 2019, we surpassed the \$3 million mark in the value of services donated at the clinic. We are treating more patients than ever before, and providing more comprehensive care, with the addition of endodontics, prosthetics and new equipment.

We received our fifth consecutive grant from the Mars-Wrigley Foundation. In 2019, this grant allowed us to fund 11 community oral health programs. It also provided 6,900 underserved adults and children access to dental care that included oral hygiene education, screenings and treatments, valued at \$650,000.

In 2019, our fall fundraiser had a record number of attendees, we received more Vision Award nominations than ever before and attendance at our Distinguished Speaker Series at the CDS Midwinter Meeting continued to grow.

None of our successes would be possible without the support of individual, family, corporate and nonprofit donors, including our parent organization, the Chicago Dental Society. For a complete list of our generous community and foundation supporters, please see page 13.

Finally, we owe a great debt of gratitude to the dedicated members of the CDS Foundation Board of Trustees, the CDSF Dental Clinic Board of Managers and the CDSF Clinic LLC Committee. Their behind-the-scenes work ensures the continued existence of the Foundation and its many programs, events and projects that help us fulfill our mission.

As the Foundation’s outgoing president and perpetual supporter, I am honored to play a small role in the success of our organization. Thank you for the opportunity to serve.

Best,

# CDS Foundation Clinic

The Chicago Dental Society Foundation Clinic provides dental care to low-income residents of DuPage, Cook and Lake Counties. In 2019, the clinic provided \$486,000\* in dental treatment and 1,246 volunteer hours.

The volunteer efforts of local oral healthcare professionals, as well as our partnerships in the community, enable us to care for those who would otherwise have little to no access to quality dental services. Since the Clinic's opening in 2013, volunteers have donated over 9,700 hours and \$3.3 million\* in oral health care.

Dr. Patrick Dean Smith for the UIC College of Dentistry's Implant Supported Overdentures as the 1st Choice Treatment for Underserved Patients

Dr. Bryan Thompson for the Healthy Smiles Increasing Oral Health Awareness to Pediatric Patients Program in the South and South East neighborhoods of Chicago

Dr. Susan Torres for the Pillars Community Health Dental Services Support in LaGrange

Dr. George Zehak for the Heal Elgin Project in Elgin

# 2019 Vision Award

The CDS Foundation Vision Award annually recognizes a dedicated philanthropist and volunteer who generously supports access to care programs and dental education for the underserved in their community; practices the dental profession with integrity, honesty and truthfulness with commitment to the protection of the public trust; demonstrates altruism in endeavors, meriting the respect of patients, colleagues and the community; and leads and inspires others through a high sense of purpose and dedication.

The CDS Foundation Vision Award for 2019 was presented to CDS member Dr. Eric Jackson of Oral Health Care Professionals in Downers Grove. The award was given to Dr. Jackson at the Midwinter Meeting Opening Session on February 20, 2020 by CDS Foundation Communications Chair Robin Gathman of Planmeca and CDS Foundation Chair Trucia Drummond.

Besides numerous hours of being a volunteer at the CDS Foundation Clinic in Wheaton as well as participating in various charitable events, Dr. Jackson also spearheaded the creation of the Little YOUth Day event that helps trains Metropolitan Family Services – DuPage staff about the importance of dental health.

“I firmly believe that volunteering my dental skills not only strengthens and heals others but strengthens and heals me as well,” Dr. Jackson said. “Volunteering has allowed me to put the golden rule and stewardship to practice, two core values instilled in me by my parents since childhood.”

He challenged his colleagues in dentistry to increase their volunteerism. “Don’t wait, just do it,” he said.

Dr. Eric Jackson; Dr. Trucia Drummond, CDS Foundation Chair; Dr. Robin Gathman, CDS Foundation Communications Chair; CDS President Dr. Terri Tiersky; and Dr. John Hagopian, Program Chair.
