2021 Platform Functionality Guide
Overview

The purpose of this document is to provide you with basic information on features included in your exhibitor profile page (your features are dependent on level of sponsorship). It will walk you through each platform, and highlight some features and ideas on how to leverage it in a virtual environment to help you deliver a successful program.

We hope this guide is helpful.

Drop a Business Card
Drop a Business Card

A button is displayed which allows the attendee to send their contact information to the exhibitor. Registration data for the attendees who click the button will flow through reporting.

If an attendee opts-out at the event level, they are still able to share their contact information with specific exhibitors using this feature.

USES/IDEAS:
• Collect contact info
• For giveaways/raffles
• Similar to a fishbowl in a live event

STEPS:
1. Attendees click “Drop a Business Card”
2. When you click on the box a message will pop-up confirming that they have shared their information. They will see “Thanks for stopping by!”
Live Exhibitor Chat
Chat allows attendees to chat publicly during the event.

When chatting, users can use a variety of tools, including:
• Add an emoji, or giphy
• Interact with an existing post
• @Mention

USES/IDEAS:
• Make quick connection
• Promote upcoming sessions
• Promote your other activities throughout the show
• Answer product and services questions
• Have your company representatives interact with other attendees
Optional Booth Add-On: Virtual Meeting Room

upgrade option for CDS exhibitors
Virtual Meeting Room

This is an optional booth add-on. Please review if you have upgraded to include a virtual meeting room in your sponsorship package or contact CDS if interested in purchasing this feature.

The Virtual Meeting Room can be used in a public setting, and accommodate up to 50 attendees at a time.

FEATURES:

• **Cam & Mic**: Toggle to turn the display off/on.
• **Share**: Allows the user to embed links for another app or to share their screen with other participants (for a better user experience, it is best to share the specific application and not your desktop).
• **Chat**: allows the user to enter a chat
• **Open a window where all current meeting participants will be listed. This is the same window as the Chat window. There is a toggle switch to move between the two views.**
• **When, the participant leaves the meeting a pop-up is displayed.**

USES AND IDEAS:

1. **Promote Upcoming Sessions**: Chat with virtual exhibit visitors and promote your sessions
2. **Make Quick Connections**: This can be a public meeting space where attendees can come in and out as they wish. Equivalent to a registration desk, you can have your exhibit staff on-hand to help answer attendee questions.
3. **Office Hours**: You can use it as an office hours to help answer specific product or service related questions.
4. **Public Booth Demos**: Highlight and demo your products or services in a public setting.
Connect Now

Virtual Networking
Overview

Grip (the virtual networking platform) provides attendees, exhibitors, and sponsors with highly targeted networking recommendations to help them meet other people who are aligned with their professional goals and interests.

How Matchmaking works:
● The AI-powered algorithm makes recommendations for connections.
● Individuals can act on these recommendations to reach out to and connect with other similarly aligned individuals, gather relevant business leads, and schedule meetings for the event. Meeting invitations are integrated with Outlook and Google Calendar.
● Attendees, exhibitors, and sponsors are able to grow their networks, save valuable contact details, and get business done.

Data sources
● Some are based on previous meetings and connections people like you have made.
● Others are based on your profile data and finding other people with similar profile data.
Connect Now

Make connections with 2 Simple steps | Complete only one time

1. Step 1: The first time you log in to Grip you will see this screen and be prompted to complete these steps

2. Step 2: Consent

Meet Attendees
Meet Attendees

1. CHAT
A participant is only able to chat with another participant when a connection (handshake) is made by:
- Both participants showing interest
- A Meeting invitation being sent to you (allows the invitee to message the inviter)
- A Meeting request has been accepted

2. INTERESTED
When selected, the attendee profile will move into My Interested List and removed from the Recommended for You list.

3. SKIP
When selected, the attendee profile will move into My Skip List and removed from the Recommended for You list. This is anonymous so the person you skip will not know you selected this option.

By selecting Meet, Interested or Skip, Grip will update your profile and provide better recommendations for other participants to meet.

4. MEET
A Meeting Schedule Pop-Up is displayed highlighting the profile of the individual selected with a scheduler to request a meeting.

Once the request is made, the system will Block the Grip calendar of both participants,

Update the inviter’s schedule, display a meeting content block and send a notification to the invitee registration email.
How to Schedule a Meeting
With Attendees

1. Click “Request a Meeting” and select a date and time from the drop down.
