EXHIBITOR RIGHTS “DO NOT APPLY” TO

To: McCormick Place Registered Contractors

Re: Exhibitor Rights **do not** apply to contractor personnel

All registered companies and contractors operating at McCormick Place must follow the State of Illinois Legislation regarding display installation/dismantling.

One of the significant changes in the legislation is that it allows “Full Time Exhibitor Personnel” to perform work on their display without any size limitation. This work includes the use of tools both hand and power tools and electrical work.

IT IS IMPORTANT TO NOTE THAT THE LEGISLATION DOES NOT ALLOW EXHIBITORS TO TRANSFER THEIR RIGHTS TO CONTRACTOR PERSONNEL.

Any registered contractor who attempts to take advantage of these changes, created by the legislation, by posing as an exhibitor employee will incur serious consequences including the possible revocation of the “Right of Entry” agreement. It is the contractor’s responsibility to have a complete understanding of all jurisdiction rules and McCormick Place rules that apply to any specific work.

Telephone Services

Once installed, telephone service is active 24 hours a day for the entire length of the event. The dial tone is deactivated the morning following the last day of the event. If you require service beyond that, please contact our Service Desk. Reactivating fees apply if service needs to be re-established.

The cost of our telephone service includes telephone usage*. If applicable, telephone usage is billed after the close of the event and billed to your credit card. All telephone calls made from your telephone line once it is installed are your responsibility. Credit will not be given for telephone calls made over installed lines. To guard against unauthorized use, be sure to secure your telephone each night. Telephone usage will be billed to your credit card shortly after the close of the event. If you need a detail of all calls made, contact us at (312) 791-6113.

Telecommunications Tax: In the State of Illinois and the City of Chicago a Telecommunications Tax is required. These taxes are based upon current communications tax rates and are subject to change without notice. Tax exemptions do not apply for these items.

International Usage Deposit: For internationally billed companies, a usage deposit of \$300.00 per line is required before “calling out” restrictions are lifted. Including the deposit at the time of your initial order will ensure that you will be able to call out as soon as you plug your telephone into the line. If your total usage is less than the usage deposit, the balance will be applied towards any outstanding charges.

Network Security at McCormick Place and Wintrust Arena

Please be aware that the McCormick Place staff provides no services around securing your data network. Referenced in our Terms and Conditions for Service is the following:

*10. **Internet Security Disclaimer.** The Authority does not provide security, such as, but not limited to, firewalls, for any Internet service it provides. It is the sole responsibility of the Customer to provide any necessary security. With execution of this document, Customer agrees to the Terms and Conditions of this Agreement and will hold the Authority, it's board members, officers, employees, agents, and consultants harmless for any and all liabilities arising from the use of non-secured Internet services.*

Our bandwidth delivery should be treated as you would any Internet provider's service. You will need to manage your own data and network security.

To provide some assistance to that end, please review the following helpful tips:

- Ensure that your computers have the latest Anti-Virus updates, ideally before arriving on site
- Apply all of the most recent operating system patches, ideally before arriving on site
- Utilize firewall software on all connected devices
- Utilize your own physical firewall(s) on each key VLAN
- Report issues immediately to both show management and facility IT representatives.
- Ensure that you do not attempt to troubleshoot physical issues by relocating network cables to a different switch, port, or wall jack
- Make sure you have the permissions for administrative rights for computers on which you might need to install programs or modify settings.
- Be aware that the facility's wireless network will have peer-to-peer turned off for security purposes. This can have an impact if wanting to utilize a wireless printing solution or work with IOT devices. The best options for printing are to either print with a wired network or utilize a printer that supports cloud printing such as Google Cloud Printing or a third-party cloud print service. For Alexa and other IOT devices, internet mirroring via virtual assistants and other IOT devices is not possible on the facility wireless network. You must have your own dedicated Wi-Fi configured to accept these devices.

Please review the FTC's guidance for securing a wireless network. Although this document is meant for the home user, many of the same concepts will hold true;

<https://www.consumer.ftc.gov/articles/0013-securing-your-wireless-network>

If you have any questions, please contact the Technology Services Department during the ordering process. We work closely with our customers to ensure that they have the best experience possible. We strive to provide a top caliber and very safe experience, however, please understand that we are unable to provide guarantees or warranties against malicious activities, and we are unable to provide guidance on what services or hardware you should use for network security.

Internet Services

We also offer a full menu of Wired and Wireless Internet to meet a wide range of technical needs and budgets. All services include 24-hour access through the move-in, event/meeting days and move-out. The Technology Services department will work with you and your staff to meet your technical needs. There are no firewalls or filtering on our connection to the Internet. Please consider your vulnerabilities: make sure you have up-to-date anti-virus software installed on your computer and consider the use of a firewall for wired services (we offer firewalls for rental). All Internet prices are a flat rate for the duration of your event; no per minute usage or connection charges apply. If you have Internet questions, call (312) 791-6113 or E-mail: technology@mccormickplace.com

Please note:

The State of Illinois and the City of Chicago require a non-exempt telecommunications tax for all telephone and Internet Services. These taxes are excise and are not resale or sales tax exempt.

Description of Wired Internet Services

The following chart highlights the wired services offered. Please note the number of additional IP addresses available with each wired service. Description of Wireless Internet Services

For wireless services, you must provide a device with an 802.11 a, b, g, or n wireless receiver. 802.11ac is available in some areas. Our wireless network is optimized for 802.11 a, n, or ac devices transmitting and receiving at 5.0 Ghz. Your quality of service on the wireless network may vary widely depending upon hardware and environmental factors such as booth structures, attendee traffic, and location. For mission critical applications, McCormick Place strongly recommends using a wired dedicated service whenever possible. The following chart highlights the wireless services offered (**Call for availability of these services**).

Service	Connection Speed	Recommended Uses
VIP Wireless Service (1-device per service) Cannot be transferred across devices.	Typical Speeds up to 1.5 Mbps	This service is only available for devices which use 802.11 a or n operating at 5.0 Ghz, and is intended for users who want a fast wireless internet service capable of downloading heavier graphic content. This service is ideal for an iPad or tablet user who is unable to connect to a wired service. These services provide access to the McCormick Place Wireless Network within the user's booth and throughout the facility. For pricing and information on multi-user discounts, please contact us.
VIP Plus Wireless Service (1-device per service) Cannot be transferred across devices.	Typical Speeds up to 10 Mbps	
VIP Ultimate Wireless Service(1-device per service) Cannot be transferred across devices.	Typical Speeds Up to Unthrottled	

Restrictions on Use of Outside Wi-Fi Equipment

McCormick Place provides a robust highly effective wireless solution which uses top of the line Cisco Access Points, Controllers, and the Cisco Prime Network Control System. For high density applications, we may augment the permanent system with additional Cisco wireless access points. McCormick Place has made this investment in order to offer our events the best possible wireless network solution. Deployment of unregulated outside wireless networks and equipment will decrease the overall quality of wireless internet in the facility. Under the best of circumstances, there are limited channels which all wireless equipment must operate on. When competing networks are placed in the same space, users encounter degraded service or the inability to access available networks. McCormick Place may offer a waiver to allow an exhibitor or show manager to provide their own wireless access point. A waiver will only be provided under the following conditions:

- The exhibitor or show manager must register their access point(s) using the McCormick Place Wi-Fi Waiver Form and provide all required information at least 14 days in advance of the first move-in day for the show.
- The exhibitor or show manager must purchase a 6 Mbps or greater dedicated service from the facility for use with the access point.
- Any approved access points must be capable of manual power output and channel selection adjustments.
- The exhibitor or show manager must configure the approved access point to the requirements specified by the facility.
- Notwithstanding our best efforts to eliminate interference, if the exhibitor or show management provided unit interferes with the facility's Wi-Fi system, the user will be required to disable it. If the access points were registered with the facility, the user will receive a refund for their wired service (excluding any labor to set up their equipment) and be allowed to purchase Wi-Fi service on the facility network.
- If an exhibitor or show manager is found to be operating a non-approved wireless network using a McCormick Place wired service, the wired service will be terminated.
- Exhibitors or show managers who are granted a waiver will not have access to the facility Wi-Fi network for areas outside their broadcast area unless they purchase those services from the facility.

Read carefully before using outside wireless internet providers

There are several vendors who currently provide small portable Wi-Fi systems which connect to a cellular carrier and provide Wi-Fi service to linked devices. While this may appear to be a great solution to an individual who wants to provide temporary Wi-Fi services, they typically interfere with the Wi-Fi signal provided to users on the facility system. McCormick Place provides a competitively priced, exhibitor targeted Wi-Fi service which can be used throughout the facility and is supported by an in-house staff. In order to help our customers who need the type of service that is delivered by “internet in a briefcase” providers, McCormick Place has developed a service offering to deliver an improved version of what these outside providers sell, and do so at a lower net cost. The chart below compares a sample third party’s offering with McCormick Place’s improved service;

	Third Party example	McCormick Place VIP Wireless
Basic Service for one device	\$499 (4 devices maximum)	\$300 (\$300 for the first device, \$150 each for the next 9 and less each from there. Unlike 3 rd party offerings, this service can extend to any number of devices needed at a continually reducing scale.)
*Only services from McCormick Place will extend the full run of the facility (public spaces, expo halls, ball rooms and meeting rooms). Services offered by outside vendors only work in range of the device they send. Additionally, onsite support is not available for any Wi-Fi provider other than McCormick Place.		
Additional days beyond 3	\$125	No charge
*The basic service from our sample provider only covers 3 days.		
Shipping	\$60	No charge
Estimated total for a 4-day show	\$684	\$300

Although the initial appearance may be that the “bring your own internet” option is attractive, clearly it is advantageous to purchase directly from the facility. To recap some of the benefits to McCormick Place’s VIP Wireless offering:

- Price: McCormick Place VIP Wireless is more cost effective than outside providers of Wi-Fi.
- Support: The only supported wireless provider is McCormick Place. As such, we:
 - Visit customers who require customer support
 - Help customers with device configuration
 - Work to resolve interference issues with neighboring exhibitors who may not be following McCormick Place rules for Wi-Fi use
 - Add equipment directly to an affected user’s booth if necessary
- Convenience: There is no need to utilize a freight carrier such as Fed Ex or UPS to transport devices, etc. The in-house equipment is all that is required.
- Service: Unlike “bring your own” options, McCormick Place VIP Wireless works throughout the facility.

Wireless Access Point Waiver

If you plan to utilize a wireless access point on a hard-wired service, please review this page carefully and submit the necessary information

McCormick Place is the exclusive provider of wired and IEEE Standard 802.11 Wireless (Wi-Fi) Internet Services in all McCormick Place Facilities except for the McCormick Place Hyatt Hotel and the Marquis Marriott Hotel.

McCormick Place may offer a waiver to allow an exhibitor to provide wireless service within their own booth/contracted space. A waiver will only be provided under the following conditions:

1. The exhibitor must register their access point(s) using the McCormick Place Wi-Fi Waiver Form and provide all required information at least 30 days in advance of the first move-in day for the show.
2. The exhibitor must purchase a 6 Mbps or greater dedicated wired internet service from the facility.
3. Any approved access points must be capable of manual power output and channel selection adjustments.
4. The exhibitor must configure the approved access point to the requirements specified by the facility.
5. Notwithstanding our best efforts to eliminate interference, if the exhibitor provided unit interferes with the facility's Wi-Fi system, the exhibitor will be required to disable it. If the access points were registered with the facility, the exhibitor will receive a refund for their wired service (excluding any labor to set up their equipment) and be allowed to purchase Wi-Fi service on the facility network.

If an exhibitor is found to be operating a non-approved wireless network using a McCormick Place wired service, their wired service will be terminated.

Exhibitors who are granted a waiver will not have access to the facility Wi-Fi network for areas outside their broadcast area unless they purchase those services from the facility.

Payment Policy

The exhibiting firm is responsible for payment. If a third party (i.e. agent, exhibitor appointed contractor, etc.) is hired to handle display and/or billing for any services, the exhibiting firm agrees that they are responsible for payment of the charges in the event that the named third party (i.e. agent / exhibitor appointed contractor, etc.) does not discharge payment of the invoice prior to the last day of the show. All charges would then revert to the exhibiting company. All invoices are due and payable upon receipt by either party by the close of the event. For charges that are invoiced, payment is due upon receipt of invoice. Any charges unpaid 30 days after the invoice date will incur a finance charge of 1.5% per month, 18% annually, or the maximum legally allowable rate, whichever is lower. In addition, all future orders will be on a pre-paid basis only.

This payment policy agreement shall be governed by and construed in accordance with laws of the State of Illinois.

- For cancellation of telecommunication services that have been installed and used, the full cost will be charged.

Limitation of Liability

Any liability of McCormick Place for the provision of services, or the failure to provide services or with respect to any claim, loss or cause of action arising from the provision of services or the failure to so provide is limited to the amount actually paid for the services in question.

Exhibit Hall Use and Guidelines

McCormick Place Access Regulations (BEEP)

All Event Approved Contractors (EACs) or persons working on show floor must enter through one of the 3 Building Entry and Exit Procedure (BEEP) locations and receive/wear the wristband of the day.

This allows entry into McCormick Place buildings and must be adhered to regardless of credentialing system issued for floor access by event management.

The exception is for official exhibitors wearing show credentials - contractors working on the show floor to assemble and disassemble booths or similar type work should not be issued exhibitor credentials to circumvent this process.

Fire Safety Regulations

- Fire Prevention reserves the right to make any final decisions regarding the outlined requirements, according to Section 2-36-220 of the Municipal Code of Chicago on Fire Prevention.
- Prior to the show opening and at any time during the event, the Fire Marshal may inspect the booths to ensure these requirements are met. If they are not, adjustments can be costly, and if a booth imposes a significant fire hazard, it will be prohibited from exhibiting.
- The Fire Safety Manager at 312-791-6079 or dcozzi@mccormickplace.com can answer any questions or provide a set of fire code information.

Booth Staging

In addition to equipment and furniture placed within a booth space, exhibitors are allowed to stage the following items:

- Boxed or loose product, materials or literature.
- Fiber cases used to ship pop-up displays.
- Personal items such as luggage, purses, briefcases or coats.

The following restrictions must be observed when staging these additional items:

- The amount of product, materials or literature that may be staged within a booth space must not exceed a one-day supply.
- Items may be placed either in a display case, on a counter, on a shelving unit, in a closet, on a table, under a table or stacked neatly within the booth space.

Booth Staging (continued)

- Items that are placed under a table must not protrude outside the table dimensions.
- Items that are stacked must not create a tripping hazard or hamper easy movement within the booth space.
- Items may not be placed on or within six inches of floor ports, electrical wiring or cabling.
- Pallets, empty crates, cartons and boxes may not be stored in the booth space.
- Staging will not be allowed behind the back wall of the booth and behind the drape within the booth.

Fire Retardancy

Booth construction and decoration materials must be fire retardant. It is suggested that a certificate of retardancy be available at the show to prevent the need for possible on-site testing of the material. Fabrics must pass the NFPA-701 Code, and all other construction and decoration materials must pass the NFPA-703 Code as well as the UL-1975 test. General guidelines for material fire retardancy include:

- Backdrops, tents, canopies, dust and table covers, drapes and similar fabrics: These fabrics can often be made fire retardant by a dry cleaner that can issue a certificate of fire retardancy. Suppliers and/or display manufacturers can also provide a certificate included with the materials.
- Corrugated cardboard/display boxes: These materials can best be made fire retardant at a factory.
- Wood and wood by-products: If wood materials are not sufficiently fire retardant, a certified fire-retardant specialist using pressure impregnation or similar impregnation method must treat them.
- Polyurethane foam, plastic and similar products.

Open Flame Devices

- Must be positioned on a non-combustible surface with a 24-inch clearance of the flame device from any combustibles and booth back wall.
- Must have a mechanism available to quickly and safely extinguish the flame.
- Must have at least one multipurpose fire extinguisher rated minimum 2 – A :10- B:C strategically located with the booth.
- Booth personnel should be familiar with the operation of the fire extinguisher.
- Booth personnel must be in attendance whenever the device is in use.
- Maximum one-day supply of the replacement fuel allowed in booth.
- Device must be allowed to cool before refueling.
- Flame must be extinguished ½ hour prior to closing.

- Indoor Pyrotechnics have special permitting procedures through the City of Chicago Fire Prevention Bureau. Contact the Fire Safety Manager.
- Heating appliances
- Welding, brazing or cutting equipment
- Radioactive materials
- Compressed gas or compressed liquid cylinders if applicable used in the booth must be securely anchored to prevent toppling.

Hazardous Demonstration/Display Materials/Pyrotechnics (continued)

- Gasoline, kerosene or other flammable, toxic liquid, solid or gas
 - A limited supply of these fuels may be stored in the demonstration device but cannot be stored overnight.
 - All fuel transfers must use safety cans.
 - When displaying a flammable or combustible labeled product, the display container shall be empty. Up to two aerosol cans may be used for demonstration purposes only.

Approval requests must be sent in 60 days before move-in of the event. The request must state how the demonstration will avoid hazards to people or nearby objects. Plexiglas or similar protection is required whenever sparking may occur. Fire extinguishers will also be required.

Any chemical, substance or material deemed hazardous by O.S.H.A. requires pre-approval and must be accompanied with the appropriate M.S.D.S. McCormick Place Fire Safety Office will need copies of the M.S.D.S. before the materials arrive.

- All flammable compressed gases, such as propane and butane
- Explosives and live ammunition
- Untreated Christmas trees, cut evergreens or similar trees

Cooking and Heat-Generating Devices

- If cooking or heating appliances will be used, they must be powered electrically or by natural gas. Stoves and heaters for booth usage must be UL listed/approved and also be adequately ventilated. Nothing combustible may be placed near any heat-producing appliance. A UL listed/approved, 2 – A :10 – B: C ABC-type fire extinguisher is required in such exhibits.

Exhibits or Product Displays in Meeting Rooms

- Storage of combustible materials in meeting rooms, ballrooms or service corridors is prohibited.

Fire Hose Cabinets, Pull Stations, Aisles and Exits

- Each of these fire safety supports must be visible and accessible at all times. Adjustments to space and equipment may be required.
- Chairs, tables, and other display equipment must be clear of all aisles, corridors, stairways, and other exit areas.

Vehicle Displays

- Any vehicle or other apparatus that has a fuel tank and is part of a display, is required to be equipped with a locking (or taped) gas cap and can contain no more than 1/8 tank of fuel.
- Once the vehicle has been positioned, it cannot be moved until move-out begins, without prior approval by the Fire Safety Manager or Designee.
- Battery cables must be disconnected once the vehicle is positioned. The engine cannot be operated during show hours.
- Refueling must be done off property.

Multi-Level Booths or Ceilings (including tents)

Double-decker booths or booths with ceilings (including tents) were previously required to be equipped with fire safety devices. However, our Fire Safety Department and major show contractors have worked with the Chicago Fire Department to develop specific codes for the trade show environment that would offer a safe and cost-effective alternative to sprinklers. These specific requirements apply to all exhibits that have a ceiling or second story.

Multi-Level Booths or Ceilings (including tents) continued

Booths fall into one of the five following booth formats:

- Format 1: Exhibits with two stories under 225 square feet
- Format 2: Exhibits with two stories at or over 225 square feet
- Format 3: Exhibits with ceilings under 225 square feet
- Format 4: Exhibits with ceilings at or over 225 square feet
- Format 5: Multiple-level exhibits, which require automatic sprinklers or any of the above exhibits with installed automatic sprinklers. Separate fire code items apply.

For booth formats 1 through 4, you will need to comply with the fire code items marked yes on the following table:

Fire Code Compliance – Exhibits with Multiple Levels or Ceilings				
Fire Code Item	Booth Format			
	1	2	3	4
1. Maximum Dimensions	Yes	Yes	No	Yes
2. Second Level	Yes	Yes	No	No
3. Exit Stairways	Yes	Yes	No	No
4. Smoke Detectors	Yes	Yes	Yes	Yes
5. Fire Extinguishers	Yes	Yes	Yes	Yes
6. Posted Certificate of Fire Retardancy	No	Yes	No	Yes
7. Certified Approval	Yes	Yes	No	Yes
8. Fire Marshal Review	Yes	Yes	Yes	Yes

For exhibits, using automatic sprinklers, the amount and type of sprinkler coverage needed depends on the booth specifications. If automatic sprinklers are preferred, or are required, contact our Fire Safety Office to discuss your options.

Fire Code Items for Multiple Level Booths

- **Maximum Dimensions:** To avoid the sprinkler requirement, your exhibit must be less than or equal to 2 levels high (maximum 30-foot elevation) or 5,000 square feet of enclosed area.
- **Second Level:** Second levels must remain open and uncovered. If they are covered, sprinkler protection will be required. Booths with a third level or more must also have special sprinkler coverage.
- **Staircases:** Staircases between levels must be in compliance with the Americans with Disabilities Act and meet the following requirements:
 - Minimum of 3 feet in width
 - Provide a handrail on at least one side
 - Provide handrails a maximum of 1-1/2 inches in circumference and turned into walls
 - Not be spiral or winding
 - If the top deck is designed to hold over 10 people, or exceeds 1,200 square feet in area, a second staircase is required which must be remote from the main staircase and meet the same construction requirements.
- **Smoke Detectors:** All areas under the second level or ceiling, including closets, need to be equipped with a UL approved (or similarly approved), battery-operated smoke detector. If this space is enclosed after hours, the smoke detector must be audible outside the enclosed area.
- **Fire Extinguishers:** A UL-approved (or similarly approved) 2-1/2-pound ABC-type fire extinguisher must be posted in a clearly visible and readily accessible area for each 500 square-foot enclosure.
- **Posted Certificate of Fire Retardancy:** A certificate verifying the fire retardancy of your booth construction materials must be posted in a conspicuous place within the exhibit.
- **Certified Approval:** After the booth has been designed, the blueprints must be approved and stamped by a licensed professional structural engineer. These blueprints should include dimensions and an isometric rendering. This approval applies to all booth formats outlined previously.

Fire Code Items for Multiple Level Booths (continued)

- **Fire Safety Review:** Send stamped blueprints to McCormick Place for review with the Fire Safety Division and by the Chicago Fire Department, Fire Prevention Bureau at least 60 days before the show opens to allow sufficient time for any needed corrections. Be sure that plans show dimensions and an isometric rendering of your exhibit. In addition, all areas requiring sprinkler protection must be highlighted. If plans are not provided on time, it may cause delays or disapproval of your booth to occur during the pre-show fire inspection.
- **Fire Guards:** Once a multiple level booth or a booth with a ceiling is built and completed, and whenever the exhibit or show is closed for business, special fire watch coverage is required. Use of individuals designated as fireguards is subject to prior approval by the McCormick Place Fire Safety Manager.
- **Americans with Disabilities Act:** All exhibits must comply with the ADA. For information on compliance, contact the McCormick Place Fire Safety Manager.

Hazardous Materials Management

Neither McCormick Place Housekeeping Department nor your official service contractor manages hazardous material removal. However, your Event Manager can provide contractor names specializing in this service. Exhibitors are responsible to make their own arrangements.
